Story Time

THINGS I'VE SCREWED UP (OR WATCHED, OR HEARD FROM OTHER OFFICIALS) AND WE CAN ALL LEARN FROM

Libero Serving

The Team S libero has not served in the current set. Player #10 is supposed to serve next. The libero replaces #15, and goes to the service area. The team scores 1 point, and then scorer notifies the R2 that the wrong server served.

Now what? Do we adjust the score? Is the libero locked into this serving spot (for #10) for the remainder of the set?

Palma @ N. Salinas 2022

Libero Serving

The Team S libero has not served in the current set. Player #10 is supposed to serve next. The libero replaces #15, and goes to the service area. The team scores 1 point, and then scorer notifies the R2 that the wrong server served.

The point is removed from Team S, and a side out is awarded. (This is noted with a square on the score sheet).

But since the libero did not replace a legal server, the libero has not served yet and may subsequently serve in any position. (In this case, for #15 as the coach planned).

Case 6.4.2 Sit A

Libero Replacement - Injury

The libero is injured during play. It is determined that the libero cannot continue, and will be replaced.

How long does the coach have to re-designate a libero?

Can the coach designate a new libero immediately, and replace the injured libero with the new libero?

Why does all the weird stuff happen with liberos?

Palo Alto @ St. Francis – Set #5, 2020

Libero Replacement - Injury

The libero is injured during play. It is determined that the libero cannot continue, and will be replaced.

How long does the coach have to re-designate a libero? 10-4-3

Redesignation does not need to occur immediately, but may occur at the discretion of the coach.

Any substitute may be designated as the libero for the injured libero.

The new libero must wear (change into) a libero jersey and remain the libero for the remainder of the set.

Libero Replacement - Injury

The libero is injured during play. It is determined that the libero cannot continue, and will be replaced.

Can the coach designate a new libero immediately, and replace the injured libero with the new libero? 10-4-3

Libero Replacement - Injury

The libero is injured during play. It is determined that the libero cannot continue, and will be replaced.

Can the coach designate a new libero immediately, and replace the injured libero with the new libero? 10-4-3

No. The libero must be replaced by the player he/she replaced. This is the libero replacement for this dead ball. The new libero may replace the player after the next completed rally.

Libero Dig

Team A attacks with a hard driven ball thru a block. The Team B libero, who is straddling the attack line, digs the ball with overhand action (maybe in self defense) and ball deflects above the height of the net. Then:

A. The setter dumps the ball over the net.

B. An attacker kills the ball.

C. An attacker hits the ball which is blocked back into Team B's back row.

D. An attacker hits the ball into the net, and the setter digs it up and over with a free ball to Team A.

E. There is a joust at the net.

Libero Dig

This can be difficult in real time – it happens so fast!

The keys to this are:

Recognizing the Libero has “set” the ball using overhead finger action.

Determining if the libero is on/in front of the attack line, or behind it.

- Easier on a dink over the block, harder on a reaction dig from a driven ball.

Determining if a legal attack has been completed.

Your R2 may be able to help you!

Libero Dig

Team A attacks with a hard driven ball thru a block. The Team B libero, who is straddling the attack line, digs the ball with overhand action (maybe in self defense) and ball deflects above the height of the net. Then:

A. The setter dumps the ball over the net.

Illegal attack, charged to the libero.

B. An attacker kills the ball.

Illegal attack, charged to the libero.

C. An attacker hits the ball which is blocked back into Team B's back row.

Illegal attack, charged to the libero.

Libero Dig

Team A attacks with a hard driven ball thru a block. The Team B libero, who is straddling the attack line, digs the ball with overhand action (maybe in self defense) and ball deflects above the net. Then:

D. An attacker hits the ball into the net, and the setter digs it up and over with a free ball to Team A.

Legal – play continues. (There was no completed attack on the next hit.)

E. There is a joust at the net.

Illegal attack, charged to the libero. The simultaneous contact counts as a completed (and legally blocked) attack.

Wrong Server…

For simplicity sake, we'll call the order 1,2,3,4,5,6

1 served

2 served

4 served, not detected out of order

5 served, still not detected

6 served, scored 2 points, and then the table informs R2 that the wrong server is serving.

Now what?

Wrong Server…

For simplicity sake we'll call the order 1,2,3,4,5,6

6 served, scored 2 points, and then the table informs R2 that the wrong server is serving.

We act on the current wrong server, and cannot change any thing for the previous servers.

- Cancel the 2 points due to a wrong server.

- Have the team back rotate to put 5 in the RB position, and 6 will be the next server.

Ideally we catch this earlier, but we didn’t.

A block may involve wrist action provided there is no prolonged contact

Block

Block Attempt – the action of blocking without touching the ball. An attempt to block does not constitute a block.

Completed block – when the ball is touched by a blocker. Only front row players are permitted to complete a block.

Collective block – a block executed by more than one blocker in close proximity. It is completed when one of the players touches the ball. It is a blocking fault if a back-row player or libero participates in a completed collective block.
